

**Using the Whiteboard**

- Ask a volunteer to use the **Pen** to work out the answer the question on the whiteboard.

**Teaching the Math**

This problem requires students to use higher order thinking skills as they evaluate if Tanya's statement is correct. This is a multistep problem requiring students to gather the correct information from the table.

**Ask:** What is the correct answer using the discounted price? **\$68**

**Answer Key**

**No.** Possible explanation: Tanya used the regular price rather than using the discounted price to get her answer.
