

Using the Whiteboard

- Read the instructions on the slide.
- Ask volunteers to use the **Pen** to fill in blank lines and add the partial products to reach the answer.

Answer Key

Find 4×213 . Use expanded form.

		8	0	0
		4	0	
	+		1	2
		8	5	2

$$4 \times 213 = \underline{4} \times (\underline{200} + \underline{10} + \underline{3})$$

$$= (\underline{4} \times \underline{200}) + (\underline{4} \times \underline{10}) + (\underline{4} \times \underline{3})$$

Use the Distributive Property.

$$= \underline{800} + \underline{40} + \underline{12}$$

$$= \underline{852}$$
