

**Using the Whiteboard**

- Read the directions and discuss the problem with students.
- Ask a volunteer to use the **Pen** to solve the problem in the workspace and write the answer on the line.
- Tap **Try Another!** to replace the problem with another problem.
- Invite a volunteer to use the **Pen** to solve the problem in the workspace and write the answer on the line.

Answer Key

$2\frac{1}{8}$ feet long

1 student; possible explanation: 25 divided by 3 is 8r1. There are 8 teams of 3 students, so the remaining 1 student cannot be on a team.
