Teaching the Math

Ask: What are you asked to find? **The time of the runner who finished first.**

Ask: What do you need to do to find the answer? **Possible answer: Use a place-value chart to compare the times to find the time that is less.**

Ask: Look back. Does your answer make sense? Explain. **Yes. The time of the runner who finished first is the lesser time of the two. Since $4.83 < 4.89$, then 4.83 minutes is the time of the runner who finished first.**
